

Its in our DNA

 **M3fenestration**
PART OF M3 GROUP

Welcome to M3 Group

M3 Fenestration are a trusted supplier and installer of windows, doors and cavity closers to the new build sector. We offer the latest energy efficient products, alongside carrying the necessary licenses, certifications and insurances required for the house building industry.

We specialise in the manufacture, supply and installation of premium quality windows, doors, cavity closers and roof lanterns in a range of materials. These are supplied and installed at a competitive price with a precisely controlled production process ensuring fast order fulfilment.

We are a certified Work Safe Contractor as recognised by Safety Schemes in Procurement (SSIP) and our installation teams are all current (CSCS) card holders.

Our offices are based in Droitwich, Worcestershire, with a logistical network designed to cover the majority of the UK. We welcome the opportunity to tender for any new or existing developments.

Our Journey so far

2010

M3 GROUP FORM & ACQUIRE TUNNELINE

M3 Group founded with the acquisition of Tunneline, a structural process for lining tunnels, pipes and culverts.

CHAS helped us ensure compliance across our various areas of risk management and mitigate risks across the supply chain.

2021

CHESTNUT HOMES

M3 Floodtec are selected to survey, supply and install flood resilience solutions to a number of new build development in Boston, Lincolnshire. A combination of land elevation, intelligent design and independently tested flood resilience making regional redevelopment possible.

FORGED SOLUTIONS GROUP MAKES £0.5 MILLION INVESTMENT IN FLOOD PROTECTION FOR CRITICAL ASSETS

The City of Sheffield is world famous for the production of steel and steel products and has a history of this dating back as far as the 17th century. Much of the present infrastructure and foundries were constructed in the 19th and early 20th century's and bringing these buildings up to present day flood protection standards requires a mix of several technologies which was recently undertaken at Forged Solutions Group at their Meadowhall and River Don sites, both of which have experienced severe flood events in the past.

M3 FLOODTEC AWARDED BSI STANDARD BS851188

M3 Floodtec are the first UK Flood protection specialists to have PFR flood defence products tested to the new BSI Standard BS851188.

2022

CHAS ELITE ACCREDITATION

With CHAS being the UK's Leading Provider of Risk Prevention, Compliance and Supply Chain Management Services for Clients and Contractors, it was great to put our processes to the test, and we are delighted to have been awarded CHAS Elite accreditation.

ACCOYA 'APPROVED MANUFACTURER' STATUS

We're proud to have achieved Accoya 'Approved Manufacturer' status and look forward to utilising this pioneering timber within our range of British Standard (BS851188) certified Flood Resilience products. A game changer for Listed buildings and conservation areas.

BUILD BACK BETTER

M3 Floodtec are invited to attend launch of FLOODRE's BUILD BACK BETTER at House of Parliament.

M3 FLOODTEC AWARDED BSI STANDARD BS851188

Achieved full independent certification for the M3Floodtec Flood resilient products. All products tested by the British Standards Institute to BS8551188 – first to market

ENVIRONMENT AGENCY FRAMEWORK

Trusted supplier to the Environment Agency framework and DEFRA Property Flood Resilience Grant scheme delivered through local councils and LLFA's

M3 GROUP LAUNCH M3 FENESTRATION

As specialists in door and window installation, M3 Group launch the M3 Fenestration to separate Flood contracts from Non-Flood contracts.

Residential & Commercial

M3 Fenestration offer full turnkey solutions from design through to commission, or bespoke elements to an overall building project. These may include windows, doors, roof lanterns and cavity closers.

Working in partnership with many of the UK's leading building and civil contractors, we are recognised as one of the UK's leading fenestration companies who ensure innovation, professionalism and quality workmanship is delivered on every project.

Our teamwork in partnership with our clients, often utilising industry specialists including, designers, engineers, and manufacturers to deliver high profile flood mitigation contracts for a wide range of private/public sector clients, and leading players in the utilities, water, and transport sectors.
